

Fact Sheet N°8

Basis weight advantage

Shipping Savings Calculator

Dedicated customer service from order to delivery

From order to delivery

Kallima's unique low-density, high-bulk construction offers a clear **basis weight advantage** of up to **20% savings** on yield, plus additional savings in shipping costs.

Kallima is **FSC-certified** and **FDA-compliant for dry food contact**.

We make sure customers have access to tools that help them make the right choices:

- Cost Savings Calculator
- Shipping Savings Calculator
- M-Weight Wheel (our basis weight comparison chart by competitive grade)
- Swatchbook

We also have a **flexible trial policy** for eligible users.

We can manufacture rolls to **specific sizes**.

From our inventory, we can normally cut a custom size sheet in **under 5 business days**.

Partners in certain markets support a **Quick Turn Program** on sheets.

Customer service is a cornerstone of the Kallima brand.

Dedicated customer service professionals, knowledgeable sales representatives and experienced technical personnel work hard to help our loyal customers – **from order to delivery**.
